

The traveller on the road can locate the tomb of John Bradshaw from the road as he crosses the bridge leading into Huntersville at George Ginger's residence. It is a large wild cherry tree on the brow of the terrace back of A. B. McComb's store. I went there the other day with James A. Reed and as he looked around at the beautiful valley surrounded by the numerous mountains, he said: "All Bradshaw land!"

I then came on my way home and stopped at the mouth of the nameless little run on J. H. Buzzard's place where there are millions of small stones, the talus washed down from the hills above, and I stopped to take my daily breath of fresh air, and keep on with my continuing hunt for a perfect trilobite, which will probably be the millioneth stone I turn over.

As I scanned the gravel strewn stream beds, a young fellow came walking the road, and I hailed him and told him that I would be driving into town in a few minutes and he

hunt for a perfect trilobite, which will probably be the millipneth stone I turn over.

As I scanned the gravel strewn stream beds, a young fellow came walking the road, and I hailed him and told him that I would be driving into town in a few minutes and he came and looked for specimens. He showed so much interest and intelligence in the work, that I asked him if he had had any experience in the business. He said he had worked on an expedition from the University of Chicago, in South America, for years, making collections of natural history objects. And in addition to that he had enlisted and served in the Argonne in the world war. He was a collector himself, his attention being given to numismatics, stamps, and World War relics. He was unmarried. He was looking for a position on a farm. He was farm raised. The gentleman of three continents left me to make application for a job as a farm hand.

Teachers Must Go Without Pay

No drafts for the teachers of Huntersville and Little Levels Districts will be issued for the sixth month of school, due to a shortage of funds. The amount of taxes raised for teachers' fund purposes by the Boards of Education has been exhausted and no State Aid has as yet been received. There will be sufficient funds to pay the teachers of Edray District for the sixth month and about enough money in Greenbank District to pay about three-fifths of the teachers for the same period.

It is likely that no action will be taken in the present situation until more definite information is received from the State.

300 TONS ICE WASTED IN THE TOWN YEARLY

300 Tons Ice Yearly Waster By Local People—Poorly Refrigeration Is Main Cause.

Marlinton poured 300 tons of melted ice down the drain pipes of its refrigerators during the last year without housewives getting any good from it.

This amazing figure, arrived at by the Leonard Institute of Food Preservation, is the annual ice waste in Marlinton, due to faulty refrigeration. It is based on a survey of ice meltage in Rochester, N. Y., showing a per capita waste of 500 pounds of ice. The American public is literally pouring water into a sieve, the water being in the form of ice and the sieve being the leaky uninsulated refrigerator that does not keep out hot air.

The average family should use about 8,000 pounds of ice a year if the refrigerator is well insulated and the doors fit tightly, according to food specialists. This provides for keeping the ice chamber well filled in winter as well as summer. Although the ave-

nor had the dead storm there laste days and was the The Florida n major blew, but eastern coast w by gale winds passed westward to the north of able property d Miama and env were sufficiently from Biscayne Boulevard, th thoroughfare. injured on the seriously.

.,

the survey at Rochester, a typical american city, showed that an alarming portion of the ice purchased is wasted each year in the average home. For the nation this involves a loss of millions of dollars in ice alone, besides the even greater loss in spoiled food caused by the poor refrigeration.

Purchasers of refrigerators too often consider price alone, say food preservation experts. Like an automobile, the refrigerator should be purchased on performance as well as appearance. The use of modern all-steel refrigerators with approved insulation would go far toward doing away with this heavy loss, they state.

In selecting a refrigerator, one with neither the minimum or maximum ice meltage should be chosen, according to the Leonard Institute. The refrigerator that consumes the most ice is, naturally, too costly to keep filled and will not maintain the desired temperature of 50 degrees or less, while the one that consumes the least ice probably has faulty circulation and will not do its job of keeping the food in perfect state of preservation. A reasonable rate of ice meltage is essential to keeping food good. The ice should never be covered with a blanket or paper to retard its melting.

LOCAL GRIDDERS DEFEAT RENICK

Visitors Outplayed Throughout The
Entire Game; Locals Present
Strong Team

The local High School gridders overwhelmed Renick by a 39-0 score in an unimpressive game of football at the Fairgrounds field, last Saturday.

Marlinton displayed an aggressive offense, gaining almost at will, thru any position of the opposing team, and a "rock-wall" defense which held the visitors powerless. Time and again the Marlinton line broke through and smothered plays before they gathered momentum, or hurrying passes and punts, which detracted greatly from the showing made by the visiting eleven.

On the opening kickoff, Slaven, Marlinton end received the ball and made a very pretty run back before being downed. A series of plays resulted in the first touchdown.

by the visiting eleven.

On the opening kickoff, Slaven, Marlinton end received the ball and made a very pretty run back before being downed. A series of plays resulted in the first touchdown. From then on it was more of a procession than a football game—featuring long runs by Gay, Wilson, and Captain "Bo" Coyner and some terrific line smashing by "Bones" Hamrick, the versatile fullback of the local eleven. Sam Neel Neel and "Pete" Spitzer, the diminutive half-back also showed up well.

Captain Burr and Holesapple were the luminaries for Renick.

Coach Lord used the entire squad in the game, and the second team played the entire fourth quarter.

The squad is being carefully groomed this week for the tussle with the Alumni, which is slated for this coming Saturday. No changes in the lineup which started the game last Saturday, have been announced though possibly Captain Coyner will

back also snowed up well.

RICHARDSON'S CAR STOLEN; IS RECOVERED

**State Police Overtake Thief
Near Renick; Man
Gets Away.**

Corporal Jack Tidd and H. R. Shields, of the local detachment of the State Police, did a swift piece of work Saturday night when they over took the thief who stole C. J. Richardson's Buick sedan from in front of the Marlin-Sewell hotel in less than one hour after the theft had been reported.

Driving up to a parking place beside the hotel about ten o'clock, Craig Richardson, son of C. J., at home from Randolph-Macon for the holidays, stopped and as is customary in these parts, where automobile thieves are few and far between, failed to lock the vehicle. When he

ESTAB**

in these parts, where automobile thieves are few and far between, failed to lock the vehicle. When he went back for the car it was gone. Thinking someone was playing a practical joke, and had borrowed it temporarily, he waited patiently for its return. Others, too, scoffed at the idea of it being stolen. Finally the State Police were notified, and they at once set out in their little Chevvie to find the big sedan.

As luck would have it, they started in the right direction—toward Hillsboro. On the way they took a squint at every sideroad to see what they could see. Giving up hopes of finding it in this vicinity, and being unable to find anyone who had made notation of the passing of a Buick sedan, they decided to drive to the end of the hard road, on the other side of Droop. There were no other cars on the road, they said, so Jack stepped on the gas, and away they went. In descending Droop, far in the distance, there was the light of a car. Punching the gas to the floor board, the policemen soon overtook

"Old Ironsides" Has Largest Set Ever Built

The largest single piece of structure ever erected for a motion picture will be seen in James Cruze's "Old Ironsides", mighty epic picture of the early American Navy which is now showing at the Seneca Theatre.

The edifice is an exact replica of

Mary M'Neel Beard 97, Passes Away

One of the oldest residents of Pocahontas county passed away on Thursday, December 27, 1928, when Mary McNeel Beard, age 97, who was a daughter of Richard McNeel and Mary Edminston, died at her home at Hillsboro.

Mrs. Beard was one of the pioneers of this section. She was a resident of the old state and the new. For almost a century she watched and observed the progress of a nation, state and county. Through it all she has been very active, doing her part in the community in which she lived.

She was the widow of the late M. L. Beard, and is survived by two sons, M. L. Beard and C. E. Beard.

For 85 years she was a member of the Presbyterian Church, and always took an active part in church affairs.

Funeral services were conducted at the Oak Grove Church, at Hillsboro, Saturday, December 29th, and interment made in the McNeel cemetery.

Edray District Institute Convenes Jan. 11-12

The Institute for Edray District will be held Friday and Saturday January 11 and 12.

On Friday, all of the one and two-room schools of the County will observe the work of another teacher for that day, as a part of County Institute.

The Marlinton Grades and High School, as well as all the schools in the districts will be open to visiting teachers. Teachers may make their own selection as to the school they prefer to visit, but to receive full credit for Friday they must be at the school building not later than ten o'clock and remain until 3:30 in the afternoon.

On Saturday, beginning at 10 o'clock, all the teachers of the District and those from other districts who

afternoon.

On Saturday, beginning at 10 o'clock, all the teachers of the District and those from other districts who have not attended their own district meetings, will meet in the High School building at Marlinton. A Special Session of Institute for High School teachers of the County, who have not attended five days elsewhere will be held in the afternoon, in the same building.

In order that teachers may be familiar with the law governing Institute and the necessity for attending, I quote the following from Section 114 of the West Virginia School Law:

"Every person employed as a teacher in the schools of this state shall be required to attend a county teachers' institute, or such other teachers' meeting as the state superintendent of schools shall prescribe for his group of teachers or kind of work, for at least five days in each year, or for the number of days

teacher in the schools of this state shall be required to attend a county teachers' institute, or such other teachers' meeting as the state superintendent of schools shall prescribe for his group of teachers or kind of work, for at least five days in each year, or for the number of days more or less than five, that may be prescribed by the said superintendent.

It shall be the duty of the county superintendent to see that teachers who do not attend institute or who have not been legally excused are not allowed to teach in his county during any year in which such failure occurs."

I trust all the teachers of one and two-room schools of Edray District will find it convenient to visit some school of their choice on Friday, and on Saturday, all the teachers of the district, and those who did not attend Institute in their own districts, will find it possible to be at the meeting in the Edray District High School.

C. E. Flynn, Superintendent.

in the South next year for the making of paper from cottonseed hulls.

brain, there will be no saturation point in public education.

ADVERTISING BRINGS NEW CUSTOMERS

Into your store. New customers increase the volume of business and increased volume brings increased profits. The following story is told of the Fort Smith Garment Co., by its vice president, Leo Fleming:

"We manufacture overalls and work pants. It took us 12 years to build a business from a scratch to a certain volume without advertising. With advertising the volume increased 500 per cent in two years. In our first twelve years we built our production up to 1000 dozens a month and our overhead and selling cost was \$4000 a month.

"That made a selling cost of four dollars a dozen. Two years after becoming advertisers our volume increased to 5000 dozens a month. The overhead and selling cost increased 100 percent to \$8000 a month. As a result the overhead and selling cost was reduced from four dollars a dozen to one dollar and sixty cents a dozen. We reduced the price a dollar a dozen to the retailer, paid 50c a dozen to the advertising appropriation and had 90c a dozen extra profit as a result of the advertising."

CARD OF THANKS

We again wish to express our deep appreciation to the people of Pocahontas County and in other sections contributing to the success of our 28th anniversary celebration. We are not only appreciative of the business given us, but much more so for the kindly spirit manifested that speak louder than words.

Yours sincerely,
C. J. Richardson.

TWO CARS COLLIDE ON HUNTERSVILLE ROAD; 2 INJURED

An automobile accident, in which two cars collided, occurred on the curve opposite Zed Smith's residence early Tuesday morning when Sterl Sharp, driving a 1925 Ford Coupe and Cris Beard's Chevrolet Sedan taxi came together.

According to information concerning the accident, Sharp was coming into Marlinton at a high rate of speed, and in cutting the curve was not over far enough on his side of the road to avoid hitting the approaching car. The taxi driven by J. H. Wimer, of Durbin, and had one passenger. Sharp's car was occupied by Fred Hamrick and Ted Guthrie, of Cass.

In an effort to avoid the accident, Sharp in pulling to his side of the road hit the left front wheel of Beard's car, but it seems that in doing so he got the worse end of the bargain. His car came out with a broken wind shield, broken windows, the left running board and fenders completely smashed, the right front wheel broken, the left door knocked clear out of place, and one broken spring.

In the smashup Sharp received bad injuries about the left arm and shoulder, and one other occupant of the car received severe bruises. The other escaped uninjured. They were brought to the Pocahontas Memorial Hospital, where their wounds were given medical attention.

VIOLATES GAME LAW

Fishing for trout out of season and without license is rather expensive, even if you don't catch anything, judging from the case of Cecil Rankin who was caught by game protector, Clarence Tyree, who happened along Tea Creek on Wednesday of last week and found Rankin casting in the stream with a green fly and spinner. He was arrested, but all the time the officer was making the arrest Rankin was making a noble effort to convince him that he was only fishing for suckers. The fish law violator was brought to Marlinton and tried Saturday in A. E. Smith's Justice Court and was fined \$20.00 and costs. The costs were \$7.00, thus causing his little trial for suckers cost \$27.00, enough to buy licenses for twenty-seven years.

COUNTY SCHOOLS OPENED MONDAY; BIG ENROLLMENT

When the schools of Pocahontas County opened Monday morning at 9:00 o'clock, 3076 elementry pupils, 465 high school students and 125 junior high school students began the first day of their 1928-29 session of school, according to the records of C. E. Flynn, county superintendent.

It is thought that before the close of the first week this number will be greatly strengthened. Already it is more than entered at the opening of school last year.

According to the superintendent's records, there has been employed in the county 107 of the best elementry teachers available, and 27 high-class high school teachers.

For the past month large sums have been expended in renovating school houses and adding new equipment. Each teacher starts into the term with everything in better order than ever before in the history of the county.

Not until the first month's reports come in will Superintendant Flynn know exactly how many are enrolled in the Pocahontas County schools this year, but he is of the opinion that there are some four or five hundred out of school at the present time, and if they do not voluntarily enroll during the next few weeks, an effort will be made to induce them to.

DAVE BARRETT TAKES OWN LIFE; BLOWS BRAINS OUT

Head Almost Amputated; Skull is Found in Rose Bush Nearby

(Special to The Journal)

Hillsboro—Dave Barrett, 63, took his own life by shooting his brains out with a twelve guage shot gun at his home on Droop Mountain about 11:00 A. M. January 2nd.

His body was found by his little grand child at noon on the front porch where the tragedy occurred. The head was mangled and mutilated terribly. There was nothing left of the head except the nose, mouth, and chin, the rest being blown completely from his body. A large piece of the skull was found in a rose bush

at noon on the front porch where the tragedy occurred. The head was mangled and mutilated terribly. There was nothing left of the head except the nose, mouth, and chin, the rest being blown completely from his body. A large piece of the skull was found in a rose bush near by. Pieces of his brains, and hair was found in various parts of the porch and yard.

No one witnessed the tragedy, nor did the neighbors hear the discharge of the gun. His body was found near the edge of the porch, and the shot gun near by. Neighbors, who arrived later concluded that he had tied a piece of binder twine to the trigger of the gun and to a bench in such a manner as to cause the trigger to snap when the gun was pulled slightly forward. The muzzle was placed near, or at the base of the ear pointing slightly upward. It is evident that the tragedy occurred about 11:00 o'clock because the body was still warm at noon. Number four

of the gun. His body was found near the edge of the porch, and the shot gun near by. Neighbors, who arrived later concluded that he had tied a piece of binder twine to the trigger of the gun and to a bench in such a manner as to cause the trigger to snap when the gun was pulled slightly forward. The muzzle was placed near, or at the base of the ear pointing slightly upward. It is evident that the tragedy occurred about 11:00 o'clock because the body was still warm at noon. Number four shot was used according to comparison of the shot that was found to that of number four shot.

A coroner's jury was summoned by Dr. H. W. McNeel, local physician, for the holding of an inquest. The verdict rendered by the jury was suicide beyond doubt. No reason is known why he took his own life as he was apparently sane before the

Mr. Barrett lived with his unmarried son Gilbert, who was not at home at that time. On New Year's night the deceased went to the home of his daughter, Mrs. Ken Brown, who lived very near his own residence, and asked to borrow a shot gun, explaining that a weasel was bothering his chickens. Later, near midnight, he returned with the gun, stating that it would not break down for him. He then asked if there was not a better one he could borrow. Returning home with the other gun he was not seen alive again.

It was a habit of Barrett's to visit his daughter and family (Mrs. Ken Brown) every morning and inquire how they were. However, on the fatal morning he did not appear. One of his grand children on his way to school passed through his yard, and saw no signs of him, trying the door he found it locked and no signs of life inside.

The deceased has five sons and daughters to mourn; they are: Holly, of Phillipi; Gilbert, at home; Tom of Spice; Mrs. Ken Brown, of Spice; and one daughter who lives near Ed-ray.

FLU EPIDEMIC REACHES 500

Disease Not in Virulent Form;
Claimed as Bad as In 1918.

The flu epidemic has assumed great proportions in Marlinton and surrounding community, according to medical authorities, who report more than five hundred cases in this immediate section. It was hoped that the epidemic would soon reach its zenith, but instead new cases are being added daily.

The local doctors, who are doing everything within their power to relieve the host of sufferers, are experiencing a session of the hardest work since the epidemic of 1918, according to one physician.

Although no deaths have been reported as being directly from the flu, the disease is prevalent in a very bad form, and special precaution is advised by doctors to prevent death from some other malady which might accompany the dreaded disease.

TOWN OFFICIALS RECEIVE 48 VOTES

**"Scratching" in Evidence; Man Not
On Ticket Gets Two Votes.**

Marlinton will be served for the next year by the same mayor and council as during the past year, it was decided Thursday of last week when the city election was held and forty-eight voters went to the polls and cast their ballots in approval of the last year's administration. No other ticket was in the field.

No kind of an election, with or without opposition can be held without "scratching", it was revealed when the vote was posted in front of the place of voting. Two of the forty-eight scratched the names of some of those on the ticket and inserted a name of their own choice.

Those elected were:

F. C. Allen, mayor; A. H. McFerrin, recorder; and D. C. Adkison, F. M. Sydnor, Ira D. Brill, C. E. Denison, and D. W. Williams, councilmen. Harlow Waugh, whose name did not appear on the ballot, received two votes.

MRS. URIAH BIRD IS VICTIM OF FLU

Was Ill Only Few Days; Funeral to
be held Thursday.

One death resulting from influenza occurred last night when Mrs. Susan Bird, 80, wife of Uriah Bird, passed away after an illness of only a few days. She had been in ill health for several years, and her condition was such that the disease could not be fought by physicians successfully.

Mrs. Bird was a daughter of Eli-gah Hudson, of Durbin. She was born in this county. Fifty-eight years ago she was married to Uriah Bird, and to this union was born eight children, six of whom survive. The surviving children are J. Howard Bird, of Savage, Md.; Mrs. Lloyd Moore, of Lynchburg, Va.; Mrs. George Spangler, of Macon, Ga.; Mrs. H. R. Terry, of Clifton Forge, Mrs. Ona Vogel, of New Philadelphia, Ohio, and Mrs. Frank King, of this city. The deceased children were Mrs. Henry Gay, of Buckhannon; and Mrs. W. W. Tyree, of Elkins. Besides the children, her husband and one brother, Squire J. L. Hudson, of Durbin, survive.

Mrs. Bird was a lifelong member of the M. E. Church, South, and was very active in church and community work.

Funeral services will be held at the Methodist Church on Thursday afternoon.

Marlinton Offered Chance For Great Fame

Inventor of New Cuss Words Will
Put Town on Map

There is a wonderful opportunity awaiting someone, somewhere in this country. The man or woman who will be made famous by his or her special ingenuity, may be a resident of Marlinton. The females are included in this opportunity because for the past several years they have been gradually becoming more and more competitors of the men folks in almost every line of endeavor, and it is just possible that some woman may fall heir to this unusual renown and have her name carved in glittering letters on the tablet of fame.

Everyone will admit that this old ball has been twisting at a pretty lively gait for the past quarter of a century. The fellow who permitted himself stand still for a short space

Everyone will admit that this old ball has been twisting at a pretty lively gait for the past quarter of a century. The fellow who permitted himself stand still for a short space of time has discovered that the rest of the world has gone whizzing past him and he is more or less of an old foggy. Everything has been hitting on all six, so to speak, and wonderful progress has been seen in business, literature, art, commerce and invention. After a close check-up, however, it has been discovered by a very learned authority on the subject that the world is somewhat backward in one particular. To say, somewhat backward, is expressing it rather mildly for the gentleman in question, finds that practically no progress has been made in this particular line since the days of Shakespeare, and a few other birds of that type who took a keen delight in setting their thoughts down in writing. This eminent authority has discovered that the whole world is way behind in the matter of new "cuss" words. Stop right here for a minute or two and consider the question yourself. How

To say, somewhat backward, is expressing it rather mildly for the gentleman in question, finds that practically no progress has been made in this particular line since the days of Shakespeare, and a few other birds of that type who took a keen delight in setting their thoughts down in writing. This eminent authority has discovered that the whole world is way behind in the matter of new "cuss" words. Stop right here for a minute or two and consider the question yourself. How many new "cuss" words have you heard of in recent years. For the life of us, we can't muster up a single one. The same old stock has been in use ever since the writer can remember and he can not think of a single new one which has taken the place of the old method of punctuating one's thoughts outwardly.

It has also been found by this same authority that the forcefulness of these old time bits of profanity has vanished. You can listen to a fellow now-a-days let out a string of these "cuss" words and they are just about as meaningless as if he had never employed them at all.

— here for a minute or two and consider the question yourself. How many new "cuss" words have you heard of in recent years. For the life of us, we can't muster up a single one. The same old stock has been in use ever since the writer can remember and he can not think of a single new one which has taken the place of the old method of punctuating one's thoughts outwardly.

It has also been found by this same authority that the forcefulness of these old time bits of profanity has vanished. You can listen to a fellow now-a-days let out a string of these "cuss" words and they are just about as meaningless as if he had never employed them at all.

The world has been moving so rapidly and the most of us have been using these old out-of-date "cuss" words that a fellow can hardly say anything in ordinary conversation today and employ one or two of them and convey any forcefulness at all. Something must be done about it. If the American people and all others for that matter, wish to continue to make themselves heard and wish to put the proper punctuation on their remarks, somebody is going to have to invent a few appropriate words or

and convey any forcefulness at all.
Something must be done about it.
If the American people and all others
for that matter, wish to continue to
make themselves heard and wish to
put the proper punctuation on their
remarks, somebody is going to have
to invent a few appropriate words or
group of words for this purpose.

Why this particular authority who
made this startling announcement a
few days ago, said that not only has
the world slipped back in the matter
of its profanity, but the average pub-
lic speaker can no longer produce
any emphasis in making a public ad-
dress by raising his voice to a higher
pitch. Nobody would pay the slight-
est attention to him at all. The only
recourse he has today to produce
such effects is by the means of whis-
pering.

All of this may be true, and may-

any emphasis in making a public ad-
dress by raising his voice to a higher
pitch. Nobody would pay the slight-
est attention to him at all. The only
recourse he has today to produce
such effects is by the means of whis-
pering.

All of this may be true, and may-
be the world is waiting for some
genius to gather together the proper
means of expression. If it be true,
then it is just as likely that some-
body here in Marlinton can supply
the list of missing words, just as well
as a resident of some other town. It
might not only bring fame to the in-
dividual, but it may be the means of
some effective publicity for the town
as well.

and sold Christmas seals in order to help fight tuberculosis.

Ruby Sharp,
Fairview Workers,
Marlinton, W. Va.

(November, 1928)

My plans for succeeding in club work this year are: To write my Illustrated Booklet, write my project circular, and complete my project that I have selected for the year of 1929 and take it to the Pocahontas County fair next fall. I am also going to study my Four-H Suggestions better in the future than I have in the past and try to get every main point in them.

In order to do the following things I must keep healthy. I am trying to keep healthy by obeying the health rules. I have gained three pounds every month since school began.

I have been able to earn all my 4-H's since I joined the Four-H club this year.

Beatrice Howard,
Buckeye Winners Club.
What New Ideas

Beatrice Howard,
Buckeye Winners Club.
What New Ideas

1. The members of our club spread Christmas cheer by singing carols at Christmas time, visiting the poor with presents, and helping with the Christmas program.
2. We discussed the Health Crusaders' Plan and made a list of things to develop our Health H by and organized a club. Each member is supposed to complete each one of these.
3. The main things listed on our club's plan of work for 1929 are: several parties are scheduled for 1929, a health play is to be given and we help with each community program every month.
4. After discussing the Big Brother and Sister Leagues suggested by Sanitary Sam we decided to organize one at our next meeting as every one thought it a very good idea.

FORD PLANS 5- DAY WORK WEEK

Detroit, Mich., Jan. 2.—To maintain a five-day week for employes and at the same time operate factories six days a week an additional 30,000 men will be employed by the Ford Motor Co., and production increased 20 per cent before March 1, officials of the company announced here today.

Only the factory here will be placed on the six day basis at this time, but it was indicated assembly plants in other cities would be transferred to the same system as production increased.

Employment of the additional men required will bring the Detroit employment roll of the Ford company to 150,000 men. Preference will be given unemployed men now in Detroit, the announcement said, and warned that men coming here from other cities would find little opportunity for employment.

The plan calls for assignment of six men to five jobs, in order that each may have two days' rest a week.

"A six-day week is all right for machines," said Henry Ford in explaining the plan, "but a five-day week is enough for men."

It is estimated that under the plan production can be increased 6,500 cars a week and costs lowered thro' reduction of idle machinery.

News From Durbin and

(Mrs. S. A. Willhid)

Durbin will now have an organized fire department, with 1000 feet of hose and four hose wagons. This is something the town has needed since it became incorporated, but it was impossible to have any protection beyond a "bucket brigade", until last fall when the fine water system was installed.

At the last meeting of the town council, on January 3rd, R. R. Dodd was appointed fire chief with O. P. Slaven as assistant.

The ringing of the First Methodist Church bell, will be the signal, should a fire occur.

Boys In Trouble

A rather deplorable incident occurred on one of our streets Saturday afternoon, when a crowd of younger boys made sport of Sol Rexrode, a Bartow man who is a little deranged mentally.

It seems that Rexrode was making imaginary arrests among the boys, and they tormented and taunted him to the extent that he began throwing stones at them to defend himself against their jeers.

This started a "battle royal" which ended when a rock thrown by one of the boys cut a bad gash in Rexrode's head.

Rather aghast at what had happened, the boys made themselves scarce, while the injured man looked up a doctor to dress the wound above his left eye, which was bleeding profusely.

He afterwards reported the boys to Mayor H. H. Hudson who held

Rather aghast at what had happened, the boys made themselves scarce, while the injured man looked up a doctor to dress the wound above his left eye, which was bleeding profusely.

He afterwards reported the boys to Mayor H. H. Hudson who held them over for the grand jury under \$500.00 bond.

The boys, who were chiefly to blame, regret very much what happened, as the stone was not intentionally aimed at Rexrode to injure him. However, what occurred should be a lesson to them, and they should receive a severe enough reprimand to convince them that rock throwing, even on general principles, is a dangerous pastime, especially when the target happens to be a person who should be protected, rather than tormented.

HILLSBORO NEWS

(Lloyd P. Vaughan, Reporter)

Entertains With Dance

Misses Mary E. Bartholomew and Catchie Bartholomew gave a dance at their respective home on the evening of January 2. Square dancing was the main feature although there was some round dancing during intermissions. A very large number of young folks were there from different communities, Hillsboro, Huntersville, Frost, and Marlinton. Refreshments which consisted of sandwiches and punch were served at 12:00 o'clock. The music was exceptionally good and the gaiety of the crowd was unsurpassable. This dance was given in the nature of a New Year's dance.

Flu Claims Many Victims

The flu has been raging in and around this community during the latter part of December and the first of January. However, the disease is subsiding somewhat at present and there are few critical cases. Some claim this epidemic to be due to the weather conditions, while others believe it contagious.

Mrs. Bright Has Accident

Mrs. Mattie Bright, a very aged lady of this city had a severe accident on New Years Day, in which she fractured her leg just below the hip bone. The accident occurred when she fell, striking her leg on some object. The local physician, Dr. McNeel attended the patient. A special and trained nurse arrived from Lewisburg on the 2nd to attend her.

and trained nurse arrived from Lew-
isburg on the 2nd to attend her.

Claude Warren Captain D. & E

Claude Warren, one of West Virginia's greatest athletes and a former resident of this city has been made captain elect of the 1929 football team of Davis-Elkins College. During Warren's prep work at Shenandoah College, Dayton, Va., he served as captain of that team in '25.

Mr. and Mrs. Covington

Are Victims of Flu

Mr. and Mrs. Albert Covington, who were coming to spend Christmas vacation with Mr. and Mrs. Tom Beard were detained in the Huntington Hospital with the flu, according to reports received here the 2nd. They are recuperating fast, but will not get the opportunity to spend Christmas here.

Harry
of Mar
3rd.

They are recuperating fast, but will not get the opportunity to spend Christmas here.

Entertains With Dance

Misses Lina and Josephine Brown-ing gave a dance at their home Jan. 4th. It was an old time square dance, and was attended by young men and women from various parts of the county. The figure callers were: Swartz Hill, Tom Yeager, and Phil McComb. The music consisted of a violin, and banjo. Refreshments consisting of sandwiches and punch were served at 12:00 o'clock. The crowd dispersed at 2:00 o'clock.

Town Holds Annual Election

The town held its annual election to elect new officials for 1929 Friday. Carl G. Beard was elected to succeed Dr. M. C. Smith as mayor; George Clark was elected as Record-er.

George Clark was elected as
er.

J. N. Deel To Visit High School

According to reports received here Monday, J. N. Deel, of West Virginia University, acting as state inspector of high schools, will visit the local high school during the latter part of this week. The decision and report of this man will probably determine whether the school will be admitted into the North Central Association of colleges and secondary schools which the high school is trying out for.

Two Prominent Students

Are Seriously Ill

Margaret Wallace of the senior class of the local high school is in a critical condition due to the flu. For several days she has been delirious.

Argil Arbogast, freshmen, took the flu which developed into a case of pneumonia last week. Although his condition is serious it is not dangerous.

of pneumonia last week. Although his condition is serious it is not dangerous.

Personal Mention

Mrs. H. Carrier is improving after a few week's illness due to an attack of flu and grippe.

Wardell Harper is able to resume his duties as manager of the Little Levels Supply Company. Mr. Harper for a week has been confined to his home on account of illness.

Summers Burr has not as yet returned to school after the holidays, due to illness.

Mrs. Sam Sheets is ill with an attack of the flu.

Mrs. Wm. Browning was confined to her bed the last weekend on account of illness.

Deputy Sheriff R. M. Bruffey, of Lobelia, was a business visitor here Saturday.

Miss Virginia Moore is confined to her bed because of an attack of the flu.

The teachers have returned from

GRADED SCHOOLS BEING SCORED

Mr. E. A. Hunt, assistant State Supervisor of Rural Schools; W. E. Buckey, Principal Fairmont High School and Oliver Shurtliff, Dean of Fairmont Teachers College, are in the county this week assisting Supt. Flynn in scoring the grade schools for standardization and checking up the High Schools for membership into the North Central Association. They will remain over for a meeting of County Institute Saturday, and will be the principal speakers at the morning session.

pointed trustees for 100 acres of land on Spice Run in the room and stead of W. A. Bratton and L. M. McClintic, deceased.

Merrick Alderman vs. F. C. Combs, sheriff's sale confirmed.

HILLSBORO ELECTION

Carl G. Beard was elected mayor of Hillsboro Thursday without opposition and George L. Clark was chosen recorder. The following were elected councilmen: R. W. Rogers, H. C. Spencer, G. C. Beard, George T. Hill and D. S. Ruckman.

a two week's vacation from various parts of the state and adjoining states.

Miss Louise Barlow is not able to return to school on account of illness.

HOSPITAL NOTES

WYSONG

Mr. Wilbur Clark, of Marlinton, who was in the hospital for a ten day's treatment, was allowed to go home Monday, he was much improved.

Miss Golda Sharp, of Frost, was operated on for infected tonsils, Saturday by Dr. McIntosh of Elkins. She returned to her home on Sunday.

Dr. E. R. McIntosh of Elkins operated on three patients Saturday. David Grimes, of Dunmore, Tonsilectomy; Mr. R. Luster Shrader, of Huntersville, Tonsilectomy; Miss Golda Sharp, of Dunmore, Tonsilectomy. On Sunday he removed tonsils of Ada Vaughan, well known colored woman of Marlinton. All patients recovered nicely. Dr. McIntosh will be with us again March 1.

Mr. O. W. Kellison, who is employed with Mr. Waugh, the dairyman, underwent an operation for appendicitis, January 5, by Dr. H. C. Solter. The patient is making a nice recovery.

Mr. Burley Wilfong, an employee of the Marlin Lumber Co., was

Durbin Tannery Super is Fined for Polluting

Because a bucket of minnows lived only four minutes after being placed in the river opposite the Durbin Tannery, Superintendent H. M. Widney accepted an invitation Friday from State Game Protector Ernest Angelo and District Protector Theodore Moore, to appear before Justice of the Peace J. A. Patterson, at Arbovale, on that day and receive punishment for polluting Greenbrier river to the extent that fish life is endangered.

According to the story of the protectors, they suspected that the water opposite the tannery was rank poison, and to verify their suspicion spent an hour or so seigning minnows to give it a trial. After getting a good supply of healthy minnows, they confronted Mr. Widney and invited him to help perform the experiment. He told them where to put the minnows, and four minutes after they were placed in the water all signs of life was exterminated.

Mr. Widney was taken before Justice Patterson, and after much argumentation, the penalty was fixed at \$15.00.

the world over.

Bank of Marlinton Builds \$10,000 Vault

With the completion of a new vault, costing in the neighborhood of \$10,000, the Bank of Marlinton now offers its customers protection equivalent to that found in any bank in the country. One month ago, a contract was let to A. G. Killingsworth, local contractor, for the construction of the vault, and he immediately set to work renovating the banking room, and constructing the massive fire-proof walls of the vault. The huge door at the entrance of the new security chamber is built of two kinds of steel, one layer of which can not be penetrated by the most powerful torch. On the inside is another safe in which money is kept, and it is so uniquely arranged that day-time burglars would find it impossible to gain entrance.
